MORE THAN SIXTY LIVES LOST.

Many People Drowned at other Places along the Gulf Ceast-Retief Parties Dispatched

NEW ORLEANS, Oct. 14.—A dispatch to the Trans-Plemocrat received early this morning from Orange. Texas, anys the storm did great damage at Sabine Pass. The Porter hotel, which contained a large number of gueste, was away; and a boat containing a large number of people was overturned in the bay and all on board were drowned. Hightlives are known to be lost, and it is feared that the worst has not been learned. A schooner plaked up three men in the bay in am exhausted condition. A relief boat has gone there with provisions and clothing for the destinate.

A special to the Picarage from Resonant.

when further particulars will be obtained.

MANY LOST AT JOHNSON'S BATOU.

The Thrace-Democrat's Lake Charles, La, special says: The loss of property slong Cameron parish, on the guif coast, and for some distance west of Sabine Pass, by the storm of Treeday night, was fearful. The mail boat from Cameron parish reports that the water at Calcasien Pass was eight feet at the lighthouse, and that the entire country east and west was submerged Treeday night, drowning thousands of cattle and rulning crops. No lives were lost at Leesburg or Calcasien Pass, but the following are reported lost at Johnson's Rayou, La. Entire families of Aifred Lambert, Harion Lukes, George Striever, L. Charles, Charles Hanhelt, Radenord Gray, and two families by the name of Franceware, beeites many others whose names have not been recordinged.

They say the waters began to invade the town in from the gulf and lake tugeshier, about 2 o'clock Tuesday afternoon, and rose with unprecedented rapidity. The clitzens of the doomed place did not realize their imminent damper untal it was too late to escape. When safety by light was too late to escape, and of the question people who were estuated as they could do so, betook the mealvas to housen and resort saljudged to be safest. The water kept rising, and between 3 and 4 o'clock the smaller houses began to yield to the reelstlees power of the waves, and not only moves from their foundations, but turned on their sides and tops.

A little later the large houses began to give way and death by drowning suemed inevitable for every clitzen of the place. With the yielding of the smaller houses several persons who

The following incomplete list of the drowned was obtained from two gentlemen who came over on an engine: Miss Mahata, Jim Yondy and tamily or six, the wife of Otto Brown and two children, Homer King, wife and child; Mrs. Kunker and son; Mrs. Fomeroy and family of five: Mrs. Stewart, daughter and son; a man of the name of Wilson; Mrs. Arthur McReynolds: Mrs. McDouald and daughter; Frank Milliken and family; Col. Marbee and family, and about twenty-five colored people, whose names could not be given.

On receipt of the news, the citizens of Bannennt immediately legan preparations for relial. The East Texas railroad placed an engine at their disposal, and a party of men have gone to frange to carry the news there and procure loats and start for the scene.

The damage to property at Sabine has been very great. The wharf property of the town was owned by New York capitalists, who also own the adjoining lands, and were saming to make Sabine Pass an important point on the cuit coast.

HOW THE PLACE WAS WHICKLD.

LONDON, Ott. 14.—Fourth day of the Newmarket second October meeting. The champion stake was won by the Duke of Westminster's three-year-old cold Ornouate, Mr. Manton's three-year-old cold Ornouate, Mr. Manton's three-year-old hilly Argo Navis third. Her Majesty's plate was won by Maj. Brace's five-year-old horse St. Gallen, Mr. Su.uer's four-year-old filly Stone Clink second, G. Lanuer's furree-year-old cold Cheisea third. There wars six starters. St. Gallen won by three lengths. MEXICO.

WIFE MURIERES LYNCHED.

THE RUBORED ASSASSINATION OF GONZALES
ST. LOUIS, GOV. 14.—A special from El Pass,
Tex., says: A report is in circulation here to
the effect that ex-President Gonzales, of Mexica,
has been assassinated in the interior, but as the
exact location of the place where the supposed
crime occurred cannot be ascertained, the report is received with consideratic doubt. Other
startling rumors are allost here to the effect
that the Mexican government is again struggling to suppress an insurrection movement. A
Mexican official seld this afternoon that he had
positive information that over twenty personind just been shot at Fressillo, a town to the
state of Zaccareesa, by order of the Mexican
government. The officer also said that he had
a rumor that Romero Rubie, in mister of the interior and father-in-law of Fresident Diaz had
deappeared while our riding in the suburbs of
the City of Mexico, and that he was supposed to
have been kidnapped by insurgants.

(intystron, Oct. 14.—The associated pressreporter cabled on inquiry to the City of Mexicatria evening, asking about the assassination of
ex-Predict Conzales at Grandalajarn. A realy
was received assing that nothing was known
there about the matter, and the ctory is not
credited.

Particulars of the Terrible Fate

NEW ORLEANS, Oct., 14 .- A dispatch to the

twenty-five colored people, whose names could not be given.

The above list comprises over fifty human beings, victims of the storm, among them some of the leading families of the place. There are others, and many of them, doubtless, drawned without any one new living knowing anything of it. It is feared whole families in different parts of the place have been swept away without leaving a person or vestige to indicate their sad fute.

d fate. On receipt of the news, the citizens of Banu-

A Description of Sabine Pass and a Throry of the Dinaster.
GALVESTON, Tex., Oct. 14.—This city has been GALTESTON, Tex., Oct. 14.—This city has been a state of feveriab exclusions all size years the dreadful news from Sabine Pass. Many auxious persons have eagerly visited the telegraph offices, seeking further particulars from the stricken town. Details of the catastrophs are very difficult to obtain, because of impaired racilities for communication in the vicinity of Sabine Pass. Telegraphic communication with Beaumont and Orange, nearest points to the unfortunate town, has been re-established, but the imbabliants of those places appear to be awaiting the return of the relief parties that have gone to Sabine Pass.

ing the return of the relief parties that have gone to Sabine Pass.

The village of Sabine Pass is located at the month of the Sabine river, within bell a mile of an extense point jutting from the Texas side. The town lies only four feet above mean the mark and is bounded by a great, awang on the west and Lake Sabine on the north. The extense to Lake Sabine is mile and a half above the town. The lake is fifteen miles long by ten miles in width, with an average depth of seven feet, which is always maintained by water pouring into the basin from two mavigatior rivers, the Neiches and the Sabine. It was this lake, according to most experienced navigators on this roast, that destroyed the town.

The horricone of last Bunday in the West Indies belw the waters with great violence toward the Texas coast. The effect of this hurricone was first nationed on this coast on Sundaymoning, and was unaintained at a birch potot by the impetus of the waters behind. The hurricone likelifed not reach these coasts at all, as exercity a threath of wind was senerced with inserting the most of the water first intering when the day of wind was renot ed on the section 2 of 12 and 2 of 12 a

*PORTLAND, 11 IDAY, OCT 15 1996

Again Europe is in a ferment in consequence of the efforts of Russia to advance toward the Bosphorus. I rom day to day the cable reports speak of war as a probable thing, and yet it is apparent that there will be no general war unless a coultion against Russ a can be formed under the lead of lingland. By policy and tra dition England is the one nation most opp to the expat sion of Russia in a direction that would build her up as a great man ime power and yet Englan I cannot attempt to prevent this, unless she can secure a powerful continental ally. The one thing at this time most favor ible to Russian schemes is the entity of France oward Germany It compels Germany to culti vate friendly relations with Russia, and leaves to the latter only the problem of satisfying Austria and keeping her our of alliance with I again This may not be diffi it, since the ab lattice of these countries are natural frients. Russia saved the Austrian monar by from ex-tinction at the time of the Hungarian rev lu-Uon, and though Hungarian pariots may still remember this against Russia with bid-terness, there is no evidence that perfect agree ment does not exist between the emperors. It

would be kept out of the English alliance and microsee no obstacle to Russia's main design. During more than one thousand years an ef fort has been making to form and to extend a fixed establishment over the multitude of races that occupy the great territory known as the Russian empire Most of these races, though known by different names, have many common characteristics, and to this fact the euccess of the rulers of Russia in bringing them under one government has largely been due. Though there are 'n Russia centers of highest civiliza-tion, yet the empire as a whole cannot be said to have emerged from the conditions of har parism. The government is despote, because the people have no adequate notion of the rights, methods, duties and conditions of popular government. The situation of Russia is extremely unfavorable to the growth of liberty and the progress of enlightenment. It is a country of vast extent, is lated from the rest of

is probable that out of the territories that once

constituted the Turkish provinces Russia could make satisfaction to Austria, so that the latter

what is intercourse with mankind Extension of the Russian empire to the Bosphorus would open the way to this result and give an impulse to the spread of civilization such as has seldom been witnessed in the history of the world. The Turk is unfit to keep the country he holls. In him there is no possibility of higher civilization But the Russian, brought into closer and more intimate relatious with the world would be regenerated. Absorption of Turkey by the Rus galize her methods and apply to the government and people the pressure of ideas and opinious from which they are now quite exampt. AN UNIUM SISTEM

The recent decision of the supreme court if Pennsylvania in regard to payn ents for in or in "store orders' has n t nitherto been reported The court in fact, held that e o tracts between employer and employe for such psyments were valid that "He che has a right to may what be will pay for labor and the other what be will receive for it and that to change these conditions seen in-ulting attempt to put the aborer under legislative tutelage, which is not only degrading to his n anhaod i ut subversive of

his rights as a citizen of the united States. This decision goes against a statute of Penagivania, enacted some time ago, making parments for labor in "store orders' unlawful The statute has been disregarded by the corpora tions, and this decision is the result of an appeal to the course for its enforcement. The basis of the decision is the doctrine that the legisla ture has no power to enact a law that infringes on the right of employers and employes to make such contracts for labor and payment therefor

reached any other conclusion. Nevertheless this system of paying for labor is very unjust to labor. It is oppressive, because the workman is obliged to take such goods as his employer offers, at the prices fixed by the employer (bilged to work for low wages, this system cobs.) the workman of a large leventage of his measure samings. It allows an choice in the purchase of goods, but compels him to take at 1 cles that may not suit him at prices 11 excess of their value. The employer makes a print mader this system on labor, and then gels a heavy per

Walla Walla Board of Trade—H. D Chapman Hollon Parker, Dr. J. M. Boyd and W. R. Upton Pendleton Common Council-L. Blum From froldendale-O D Sturge and Dudley

On behalf of the citizens of Vancouver, Mr W Brown delivered the following brief address

I welcome

Mr President and Gentlemen of the Columbia

detring tomeration. I am authorized to welcome you to Vancouver and I assure y us it affords

every great pleasure to do so, both on personal

rounds and on account of the object for which

ou are assembled. Indeed, I think this meeting

sin event worthy of note in the history of our

wor. We have had conventions here from time

to time, composed targety of distinguished man

or political and other norposes, but nove for an

bject to my conception of equal imperiance to the

appose for which you have in occomo together

those me gentlemen to congratulate you on the

barnicer of the work you have in hand and on purpose for which you have now come together allow me gentlemen to congratulate you on the character of the work you have in thand and on the behalf of the work you have in thand and on the construction of the E. I. Smith, of The Dalles, as president and Mr. W. H. Brewster, of Vancouver, as secretary, Mr. W. Byron Daniels, the former secretary declining realection.

former secretary, declining re-election

Vice presidents were elected as follows F. K. Arnold, of Portland W. B. Adair, of Astoria, L. M. Hidden, of Noncouver D. H. S. sarns, of La Camas and T & Lang, of The Dailes. PERMANENT ORGANIZATION

By invitation Vir 1 H Steams, of La Camas, addressed the convention life spoke on the subconvention and recommended that an associa-tion be formed, by receiving membership throughout the country each member to pay a small fee and small yearly dues. He thought some thousands of n embers could be secure, thus extending the interests of the society and also securing the "smews of war

Mr Arnold approved Mr Sterns's plan He said that the havigation of the Columbia river t interested every organized community in the northwest. He jayored a regular organization. e ng u te in its men ibership citizens of all sec

mittee to prepare a plac of permanent organiza tion after the general plan proposed, car ried Messrs S.carns, Arnold and McD mail were appointed as such committee After a private session of an Lour, the committee sub mitted a constitution and hy-laws, which, after some discussion, was referred to the executive committee to be reported upon at the nex auutial session of the convention

MEMORIAL TO CONGRESS

The committee on memorials, consisting of D P Thompson of Portland, J H D Grap, of Astoria, H Parker of Walla Walla, Eugene dem ple of Vancouver and T S Lang, after a sessi a of two hours, submitted the following, which adopted unanimously without discussion

in in our beil all has given hope to this period
whose second less in the diagrammate for the 173
ducts of the people of their and empire and they
increally regret his displacement.

MISCELI ANSOLS Mr W H Breweter thought the opening of the Columbia liver a necessity to free the coul-try from the necessity of railroads "We are the continue of the recessity is tree the con-try from the necessity of rationals. "We are now slaves, 'he sail, 'to the O. R. & N. (;, and other corporations.' He pointed out the advantages of a water route from the grain dis-truct of the Calumbia river basin to the ocean It would save money now paid out for freights, and advance the price of lands. Mr. Brewster thought the waterway convention a more in the thought the waterway convention a move in the right direction It was not creditable, he sail, that this great river still ran practically idle The people had the right to expect the opening

Capt Powell, United States engineer, when could be no disagreement as to the general prin ciple that appropriations should be adequate to the work in hand But this seemed impracticable. He thought that if the people wanted to adopt a 'heroic treatment' they had the matter in their own hands. If they would say to congress, "Annie your whole appropria tion to one or two works and let the rest walt. he believed the thing would be done. This was a matter for the p ople to deckie for themse you He thought the main works sho before the small ones, leaving the latter to state or private enterprise. He thought Portland ought to take a hand in these smaller local works.

Gol lang asked (apt Powell to answer if he knew why appropriations recently made by congress had been withheld

Mr Blum thought the question a leading one

—a question not proper to ask a man in (apt.

I owell a position (c) Lang invited debate on the question and made it as a motion, but no action was taken I ater Mr Huntington moved the following res

Mi Brown approved of the suggestion of that Powell He believed in the policy of con centration, and so far as he was concerned he would be willing for those works in which he was especially interested to be postponed in the interest of more in portant works. He behaved in keening on with the effort. Of course there world be opposite a meant out of congress by the railroad companies, but the people ought to work together, and he believed they would be able to receive more money in the future than in the past. Mr Brown favored the sending of

special representatives to Washington
Mr Chapman ald not believe in the policy of
centralization. He believed that it would not
be possible to get the whole appropriation for a single work. He thought the works could be put through cheaper by contract than by the present plan. He introduced a resolution to

resentative to Washington

Mr McFarland opposed. He thought it the lusines ("our representatives in congress that the discussion is to the method of raising money Mr. (hupman a resolution was

arried. It was left to the executive com nittee to (perating with the may re of towns to exceed to raise the money needed by substitutions).

if the La appointed to oversee the work at the threcades. Mr Geoghegan opposed because he though the motion was an assumption that Mr Makee thought it would not be p estble to or active in august it would not be passed in a committee to supervise the Inite 1872 as on genera, and he it ought the proposed possible would be in bead form. Mr McFarland at this joint withdrew his motion. I ster Mr McFarland in Larian I moved the as pointment of a committee. to examine the work at the (ascades and to)

LOCAL AND GENERAL

FIRE FURS NOR THE LAST — Messes, Hommis-lin & Gottmann, who have the largest and finest cock of furs on this coast, are so busy filling criders that they have not had time to makes any sublist at the Mechanics' fair this year. Their employes are working day and night on sealekin clocks, includes and other furs provinced. exployes are working day and night on sealskin cloaks, jackets and other furs, many of which are to fill orders from the East for raironal magnates and their friends. They she pped yester day a calakin overcoat for a zenticuman in Massachusette and a number of cloaks, rugs, robes etc., amounting in all to several thousand doi lars. They have sent many fore East and each package sent results in more orders, as the style and workmanship are superfor and the processor of the Jarome Marble excursion party left a number of orders for rich furs, which could not be completed before their departure Messre Rummelin & trutmann have to send their sealskins to London to be dyed and have already received one large shipment, and were considerably alarmed a day or two since on bearing that the dye works had been burned, but were much pleased yesterday on receiving a cablegram in forming them that their second to of sealskins to form the first their segens at the Fast who keep them thoroughly posted in all the latest styles, and have established an enviable reputation for the beauty and excellence of their manufactures.

ASSAULTED A MAII CABRIER -J T feerow, ASSALLTED A MAIL CARRIER—J. T terrow, who carries the mail between La Center and Arna, W T, states that he was assaulted on the thinst hy Reuben Lockwood, while in the discharge of his day as mail carrier. It appears that there was some ill feeling between the parties on account of terrow's boys laving driven Lockwood's cattle across a river or something of that sort. Terrow says Jorkwood is a time about two miles north of La Center and said. "I want to see you." On terrow stopping his horse, lockwood jumped out of his wagen and came two miles north of La Center and said "I want to see you" On Gerow stopping his horse, Lockwood jumped out of his wagen and came up to him and after some talk shout the stock mentioned, Lockwood tried to put if erow off his horse, but the latter jerked away, when Lockwood put his hand behind him as if it draw a weapon saying "—— I'l fix you terow thereupon called on Wm Milier who was present to take notice that he was assaulted while in possession of the mail, and so the row ended ferow professes to be afraid to carry the mail any longer and has put enother mun on the route. If the facts are as stated Lockwood may find that it is a serious matter to in terfere with Uncle Sam'e mail carriers.

LLECTION OF OFFICKHY -The Oregon Grand I edge, knights of Pythas, is still in session in this city, but will probably concluse its labors to-day Yesheday the following efficers were elected for the ensuing year Jay Tuttle, grand chancellor Joseph T Hagne, chancellor Inos H Handley, prelate Ward's Steve is, keeper if records and seal Juhn Ho'mes, master at arms Thomas Hirech, luner guard Charles I ellowe, outer guard Joseph H Misener, trustee By a service of five years as master of exchequer John Holmes became a past grand chancellor by virtue of service as grant chancellor the past year J H Turner, grand onter guard the past year J H Turner, grand onter guard the past year J H Turner, grand onter guard the past year J selected yesterday Tuttle is from As doria, Hayne, between, Holmes and Fellows from Portland, Handley from Hilsboro, Blackman from Heppner, and Hirsch from Marshfield.

Heff phe Gid Many—Visitors to the fur lodge, knights of Pythias, is still in session in

that Jeanne Winston his accepted a four month engagement at the Alcazar, at San Francisco, beginning the first week in November Herical argument at the Research of the salary is \$1.00 per week, \$1000 gentanted of reshe starts and railroad fare paid. It ways Histogram will be the 1 ke-Manfreit company, the last attraction at the Casino Miss Winston's contract provides that she go to Lus Angeles, and to Oregon if desired by the management, but it is not likely that the Alcazar managers will send the company to Portland so long as business is good in San Francisco.

ZAN BROS S SAI E.—A large amount of the

ZAN BHOS S SAIR - A large amount of the choicest goods saved from the fire at Zan Bros store, will be sold at auction on the wharf at store, will be sold at auction on the wharf at the foot of A street, commencing at 10 o clock this forenoon. These goods are so slightly demaged that scarcely a stain can be seen on any of them. They have been assorted and placed in lots, so that small dealers can buy quantities to suit. The goods comprise most of the staple sritcles in other wooden and willow ware lines, brooms, brushes, feather dusters, or The sale offers a splendid chance for small dealers to lay in good goods at low rates.

May Buil in a Switch — Indigs Shawne was May Bull D A Switch - Judge Steams yes-MAY BILLD A SWITCH — Judge Steams yes-terda, allowed the motion to vacate the re-straining order in the case of J. B. Montgom ery vs. The Northern Pacific Terminal Com-pany. This means that the Terminal company be allowed to build the switch from the main line in Albina over the old east bridge in fluc-street to Albina. PRICIAL EXHIBITS

PRICIAL WAS A DEPLOW

No hing in the fair has afforded the visitors (terring the band) in re-satisfuction than the continuous of fure arranged to create the best effect. I Fluxurance combined us to the both presided over by Behlow, or in his absence in one of his resistants. It coas dollars and a vast amount of patience to make this exhibit, but Behlow does not lack in either the cother result wearing a badge of his or possibly of red, and the question acless, why does he or she wear his mark of distinction. This may be easily explained when we mention the fact that Garrison is in the fair showing the Domestic, House hold and other sewing machines, and as workers maturally turn their attention to making something for the visitor, these badges are the utron e of one of Mrs Winne's schemes to at lact attention to the both in which her later ests are centered. You should see the display on the walls of the both.

ests are centered. You should see the display on the walls of the booth.

HESSELL A CO.

This enterprising and progressive house have a splendid display of machinery at the Mc chanics fair this season. Their Nickle Plate Truction Inglue is pronounced alike by mann facturer, dealers and farmers the finest, most complete and conveilent engine aver exhibited or seen on the Pacific coast. The "friction clutch," an arrangement by which the load content is an arrangement by which the load could be the content of the progress of the surface in the season of the clut splay in the season of the clut splay in the splendid improvements of this engine, such as ciddings a patent "bulance talve, reverse arrangement, dry the in bodier, springs under the engine, large drive wheels size, etc.

The Men Released and their times Remitted Capt Ogilvic Still Missing

Oggive Still Missing

Victoria Times

The tolted States government are evided by receding from the position taken by them in reference to the sent lisheries in Bohn ug sea. On the seamer felded, which arrived last high, five of the captused sealers, who un it respitably were "languishing in a dungron cell" at Sika, refurmed to this city. Their names are James liske, made of the Carolina Caut Dan Moon se of the Onward John Macatidge, mate of the Cuward Capt Lengthoupped, if the Tromton and H. Norman, mate of the 1 miton. All of the execution of Bake were sent encoded to thirty days in presonment as it and tany times ranging from \$201 to \$500 such liske was rentenced to their days in presonment as it and without a fine. Hake had put in his ion days and the others had put in all but six or seven days of the thirty days to which they had been sentenced, when they were released and their fines remitted. No viplicatin was if seven days of the thirty days to which they had been sentenced, when they were rein seed and their fines remitted. No explaint in was of fired as to the teason of their release they we emply to do by, and they stode is up in the order of their gains but with at the 5 thing has as far been head if the white all uts of their gains but with at the and it is feared that his mint begoning in set let through broading over the secure of his vessel, he has windered of into the winds at the trough broading over the secure of his vessel, he has windered of into the winds at the day battre the trut, when he was observed gring towards the woods. He has not been seen or heard of successible level processing the winds and the arms to be a called each practed or with the winds and the American schools had been of the American schools had been the gring to the American and in that up my force, if you must be allowed be had proceed as expected the best of the American and in that up my force, if you must be allowed be schools had been as separed.

The first of the result of the

Liel us Aristocracy

The vices of an aristocracy are a good deal easier to imitate than its peculiar virtues and among our limitation lengthsh gentlemen we may easily find more tendency to insolence an idenuishery than toward vator, patriousm and firm pride. There is cause to regret that the English common man's and the American common man as scruppious regard for the sex does not commend itself to all young (anadians as a model of better chivalry).

THE STAGE THE STAGE.

The Wonderfil Jars.—On 'saturday night the engagement of Marshall a Japanese tourists closes at the New Market. They are by all odds the most skillful artists in their line ever seen in America. No description of their wonderful feats is adequate. They must be seen to be appreciated. Last night they introduced their national dance—a graceful bit of work having the distinction of novelty. In addition to the jest of the acts thus far given, the Japs to-night will do the repe ascension and leap for life, the iriplicate ladders and the human foundant. Special matines to-morrow. The Japs give an entertainment which children enjoy immensely.

Absolutely Pure.

persons seen ment. The removement of Oregon from the great grain markets of he world renders grain raising for export as unprofitable business for the farmed and the second of the farmed and the formed point is an aneces. Diversided a to present the second of the farmed of pure water we have all the elements favorable for dairying and this business will naturally on as the first and become a leading industry as antely as water finds its level. There is then not not dustry that needs more the fortering ears of association and of the state than the one in question. One has legislature passed a law for the protection of the dairy against initiations and created a state dairy commissioner to carry its provis one information. That have not a secondary to the first and the accommission is accommissioner and the operations of the law to see it any what turber legislature is necessary to read out the law most effective that it may be amended by the incoming legislature.

There is another question of national importance that is likely to done to the backets.

There is another question of national importance that is likely to done to the backets.

There is another question of national importance that is likely to done to the backets of every man are also the law of the law of the backets.

There is another question of the same for every man example upon the robbile. Ours it is a land of every man example the like of which was never known in the world a latingry, except that of the seven years of plenty in the land of Experienced in holy writ. It would cheapen broad to the power and known that it would cheapen broad to the power and known that it would cheapen broad to the power and known to like the motion of the land of Experienced in holy writ. It would cheapen broad to the power and known to like the proper to the land of Experienced in holy writ.

predict that in the near inture this will be the leading industry of the state and many small of diffuser would be saved to the state if copic would want right interest of blundering a decade of the researchers; up by slow and

interesting to quality of dairy grodients as we find them in our mark that a yield what it was when we homed our association and columned the work of dairy reform it you must add at there has been grant in process. I and that our efforts have not been earth in marks.

oregon Mr Paulsen taking an opposite view, stated that the dary men needed only to learn what the markets wante. In what form butter was most desirable, etc. He related how large amounts of after have been shipped into indices a simply because some one had learned how to ship it in this and keep it fresh. I do this ware leed with a thin coating of leewax a different leed with a thin coating of leewax a different leed up but ter so that it will keep in ships for a year or two years, ever it sell git is heat of the e pation twice. Here was no new an why freegon dairy men could not beaunity it will be butter at it could be shipped into indices it remain fresh during long sea voyages if e seaker mention of a first county law; and will diquite a heal need have no fear for the present of an overstappity. They had never not been able to supply the home market. Oregon had imported butter and cheese from I house I was and California, and was still imperfug. We have the advantage of climate and of the lang ritual from or transportation, and there is no danger of war stocking the market for a few years become if everybody went to making butter, there would be sairly ablances.

Mr. H. B. Thislaen, of Derry, Polk county, remarked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his observation went, the narked that, so far as his obser

butter making. This association should resolve to give full weight in butter and every member should piedge himself or herself to stand by the resolution. It will not hur Oregon butter if it should be knownthat a two-pound printis two poneds.

About an hour was spent in profitable discus-

ion.

On motion of Mr. Paulses, the chair appointed desers, Paulses, Thiesen and Casey a committee of three to examine into the workings of the new dairy law and report at the next meeting.

The next meeting, which will occur in Desember, will be the annual meeting.

THE SILVER QUESTION. .

PORTLAND, Oct 13. TO THE EDITOR OF THE OREGONIA I was much interested in reading the article from the pen of Mr. Morton Freeman, entitled "Wheat and Silver," in THE ORROGNIAS of the 10th inst., and more so than I otherwise would baye, because it coincides with the views which laws, because it coincines with the views which and I have held upon this subject for a number of years, only perhape would go a little further than he suggests, and, instead of bringing the coinage up to the maximum required by the Bland bill, I would make it a free coinage, at Bland bill. I would make it a free coinage, although doubtless the coinage of \$4,000,000 in silver per month would seen accomplish the same results as would free coinage, viz., bring the price of silver up to the standard dollar. That it would excomplish this is as plant by my mind as that two and two make four, for it increases free who is there that twould be

c inage was free, who is there that would be foolish enough to sell silver for less than what it would be worth comed? But the question is saked how shall we maintain this standard? Will not the demonstrate silver of Europe begin at rice to finat over here to our disadvantage an thus drive all of the gold out of the country. This is the same question that was sung out over the land in every conceivable form by those in favor of the single told standard in lond, when the Bland blit was passed, and verify one would have thought from what these sussessors in finance said that in less than six years the country would have been compited of every dollar in gold, that gold would have entirely disappeared as a circulating medium, and that silver would become so [instrand of so inthe value that a farmer taxing a loss of wheat to macket would return with a land of silver dollars. Eight years have chapsed single to grand the large money conters and money ed interests of the country have been making very streamous riforts to have their prediction come to pass. But on the contrivy as stated by Mr Fremm, while we have added some \$4.00,000 of these silver dollars to our metallic circulation, we have also added some \$4.00,000 of these silver dollars to our metallic circulation, we have also added some \$4.00,000 to the gold circulation, and I firmly believe had we adpied a free contage of silver the same as of grid, that we not only would have added three times it is amount to our gold circulation but we would have seased to the producers of when and eliver in the country, many millions that have now gone into the pockets of Eugland's eagifallets, thus making it po-cibis for I dails to pri duce wheat so as to compete with us in the English markets.

In other words, from the treatment that silver is receiving from the hands of our own givernment, we are giving English of our silver products, end forces the inter to sell the surplie to the London bankers. The cheaper sirver is the greater is beginned to go portain by to fix as sh

silver dollars per capita. In The Orroonian of the 9th inst. 1 Ma Uni

silver dollars per capita.

In TLE Orrectant of the 9th inst. 'If a 1m County' has some pointed things to say on this question but to my mind insapplies the point of his filiestration I; saying the proposed renady for it by free coinage of debased silver by the United States government is like curing the whisky habit with more whisky. If he had said the priposed remedy of it, by stopping the coinage of silver builded remedy of it, by stopping the coinage of silver builded upon the English market, would be like stopping the consumption of wheat in our own country and using corn meal instead in order that we might ship the entire crop to Fugiand and so bring the markets up to the studded price so that the farmers in Oregon in ghi receive what they really should in order to pay them for the cost of raising, (§) per hushel 1 I think the latter argument would be alont as consistent as the former, and pregnant what about the same results No sur in my opinion in the great future of America, we will not be entire to the prices as fixed by the markets in Fingland but from an increased population that will furnish a home market for the use and consumption of all raw material production may be relained within our own border.

A GELAF EALLWAT

will be the products of skilled abor, and that which we shall have to expert will be the products of skilled abor, and that of the profile accruing from their production may be related within our own border.

THE REV GRO R THATES OF BOARDS IN A STATE THAT MY STATE OF THE CHARLES THAT CHARLES THAT CHARLES AND A STATE OF THE CHARLES AND A

MICHAEL DAVITT.

Lecture Last Night by the Father of the Land League.

The Irish Patriot Greeted by a Large Orowd—He Tella about Past Struggles, and Property of the Lish Patriot Greeted by a Large Orowd—He Tella about Past Struggles, and Property of the land league, arrived in this dity resterday afternoon from the Sound He was met at Kalama by a delegation of prominent members of the Irish National league, Ancient Order of Hisherlans and other societie, who went down in a special car, which was hitched to and brought back with the regular train. On arriving here Mr Davitt was driven to the Holizon houses where roome for him had been engaged Here an informal reception was had, during which the guest was waited on by a large mumber of his countrymen.

In the evening Mr Davitt lectured at the Casino, commencing at 8 o'clock The house was crowded long before his arrival, and moch interest was manifested. The spraker was in troducing the founder of the land league, its letter of the land league, its letter in the land league, its partial of the land league, its letter is calored to the land league, its letter is done to the land league. It is letter is done it so letter is done to the land league, i

was crowded long before his artival, and much interest was manifested. The speaker was in reduced by Rev Father Gibney, who said he introduced by Rev Father Gibney, who said he in troducing the founder of the land league, its foremost defender, the champion Irish patriot, Michael Davitt, [Applause.]

Mr Davitt then stepped forward and commenced by giving a brief and concise review of landlordiem in Ireland, Gladestone's measures in behalf of home rule, what helped to bring about the defeat of the isome rule measures and 2014 and 2021.

the hope of its future success. Mr. Davitt said

about the defeat of the home rule measures and the hope of its future success. In Partit said Rev. Charmon, Ladge and teachmen I really find it difficult to give utterance to my gratitude for the hearty cheers received this evening, and I find it hard to believe that I am so far away from the old country. I beg to thank you from the bottom of my heart, and don't know how I can better express myself than that I am not the advecate of a beaten cause by the on the threshold of success. We did not suffer defeat because studentee did not succeed and the thances of home rule for Irelied that I are not the above the did not suffer defeat because cladentee did not succeed and the thances of home rule for Irelied that I are well to be a final a success dun at prix no and I am anyones while in Ame 1 to 13 the 2 fight I rese we of hopeful a airs in Ireland and thanks for their pour rule assistance. We are satisfied. The speaker then proceeded to cite some of the causes of the defeat of diadatone's bill limit the proposal to accede to Ireland a separate parliament cause as startingly to the inglish mind as a sudden revolution. Then various factics were received to of a notorious character. The purchasing out of landfords by tenants, as proposed by Chadstone, was very unpopular with English landfords. Ecotland and Waiss exercised no best le influences to defeat Mr chadstone, and we ought to be surprised we were not worse beaton. People were under the impression (through symmetries, probably) that the legislature in Westminster could legislate equally for freshand, Sootland and England. The tones all proclaimed the end of England sagrentness at hand and that home rule and total separation and concession of parliament to Ireland would legislate to with laughter and rule rule for the king from the Englash gownment would smash up not supplied out for some little ting, the speaker went is to say the aristocracy of Great Britain purchased out for the supplied out.

the English government would smash up into smithereens the mitute lone rule was established. After dwelling on its spoint for some little time, the speaker went in to say the aristocracy of 4-rest Britain purchased newspapers, paid for and organized pubile, meetings—in fact resorted to every means to defeat hir disaisones proposition. The wines organized a society composed of duch gases, countesses, etc., who went into the homes of the men on used their influence to befeat hir disaisone's measure. Mr flatitithen spoke of what had been accomplished, and that the next appent would be a summerful one. Resumbay, he said hir disaisone was a powerful opponent of his own bill, by his proposing to buy out the Irish landfords and their hidness and transfer the lands to the people To this the English were oppused, and why should we get the landfords out if a trouble they brought upon themselves. Mr lationas scheme to buy out the Irish landfords to be government loaning 1503 000 000 so satarded he gland that his scheme was celested. We know the Irish landfords can never hope to have the said question settled except through and by the creation of an Irish parliament in furbill. In relation to the vote on cladstone's home rule measure, it was claimed Iroland relutined 40 upon the sweet cast for the restoration of legislative rights in Ireland. The speaker them alto the to the Parsul hand league sectionent, when papers were put down, the right of trial by jury suppressed, and hundreds imprisoned und the jails filled because landfordes unware existed cladstone had since, however, ple lege hir self never again to resort to correite legis latin for Ireland, and Lord Spencer was travel and teague in Ireland, and Lord Spencer was travel and teague in Ireland, and some of the restored and of the land seague in Ireland.

ar ost caruest advocates for home rule for Ireland

Next followed a brief recital of the history of
the land league in Ireland, beginning with the
start of the organization seven years ago. The
land belonged to the saw hot tilled it and made it
trutiful, but the condition of the Irish people who
tilled the soil was as bad as the seris of Russia.
In this country the people are not depen lent on
the land for sestemance or employment, neither
did it press so in England, but in Ireland the
cultivation of the land was dependent for the
sustenance of three fourths of the Irish people,
ard to take it away from them was equivalent
to sending them to the workhouse, as there
were no great number of facteries and other
avenues of employment such as in England and
America.

PROPOSITION TO ALMIT LADIES FREE.

Adding to said article is after the words to be done by the executive the words. The words there, that any lady authorizing the secretary to enroll her mane as a me ther of this association shall thereby been a sin be the referred without any ambust during the first but entitled to all privileges as such it called.

Under the rate, the in tice lies over for one standard.

CARRETT FRANCE ORLATION OF RETTERS.

President Knapp calls I attention to the lact that one bouse in the city (Averding) had added fine facilities for tailing cure of butter during the beaued sensor. They had built a safe kept a pientiful supply of i a mod the butter was kept in good concline. Mr. I may pleated further, that is and others I all reduced one of the steamers piying on the Wills nette to get a safe and keep a supply of lice and I., this means butter was delivered in P. rt and during the buttest weather in perfect order. He suggested that members of the association of high states the same thing.
